

PROFESSIONAL, STATUTORY AND REGULATORY BODY ACCREDITATIONS

Faculty of Technology

Department of Mathematics

The following programmes currently hold accreditation:

BSc (Hons) Mathematics

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
The Institute of Mathematics and Its Applications	Chartered Status (contribution to)	Programmes meet the educational requirements of the Chartered Mathematician designation when followed by subsequent training and experience in employment to reach Masters level competence.

BSc (Hons) Mathematics for Finance and Management

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
The Institute of Mathematics and Its Applications	Chartered Status (contribution to)	Programmes meet the educational requirements of the Chartered Mathematician designation when followed by subsequent training and experience in employment to reach Masters level competence.

BSc (Hons) Mathematics with Statistics

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
The Institute of Mathematics and Its Applications	Chartered Status (contribution to)	Programmes meet the educational requirements of the Chartered Mathematician designation when followed by subsequent training and experience in employment to reach Masters level competence.

MMath Mathematics

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
The Institute of Mathematics and Its Applications		Accredited by the Institute to meet the educational requirements of the Chartered Mathematician designation.

MSc Logistics and Supply Chain Management

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Chartered Institute of Logistics and Transport	Accredited Status, Exam exemption	This course is accredited by the Chartered Institute of Logistics and Transport (CILT). Students studying CILT accredited courses receive exemptions from the academic requirements for membership. Graduates of the MSc Logistics and Supply Chain Management course at the University of Portsmouth with an overall average pass mark above 50% are eligible to apply for Chartered Membership (CMILT) once they have gained the necessary experience.

Learning at Work

The following programmes currently hold accreditation:

Bachelor Degree Partnership Programme

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Institution of Engineering and Technology	Can be used as evidence of further learning for IEng	Learning contracts for these degrees can be used as evidence of having completed the further learning for the academic standards required for IEng (bachelors') and CEng (masters').
Institution of Marine Engineering Science and Technology		
Institution of Mechanical Engineers		
Royal Aeronautical Society		
The Institute of Healthcare Engineering and Estate Management		
The Institution of Gas Engineers and Managers	Can be used as evidence of further learning for CEng	
The Society of Operations Engineers	Can be used as evidence of further learning for IEng	

Masters Degree Partnership Programme

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Institution of Engineering and Technology	Can be used as evidence of further learning for CEng	Learning contracts for these degrees can be used as evidence of having completed the further learning for the academic standards required for IEng (bachelors') and CEng (masters').
Institution of Marine Engineering Science and Technology		
Institution of Mechanical Engineers		
Royal Aeronautical Society		
The Institute of Healthcare Engineering and Estate Management	Can be used as evidence of further learning for IEng	
The Institution of Gas Engineers and Managers	Can be used as evidence of further learning for CEng	
The Society of Operations Engineers		

PgCert Occupational Health and Safety Management

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Institute of Occupational Safety and Health	Graduate Status (contribution to)	Contributes towards Grad IOSH.

School of Civil Engineering and Surveying

The following programmes currently hold accreditation:

BEng (Hons) Civil Engineering

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Chartered Institution of Highways & Transportation	Meeting in full the academic requirement for IEng and in part for CEng	Accredited by the Chartered Institution of Highways and Transportation (CIHT) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer and partly meeting the academic requirement for registration as a Chartered Engineer.
Institute of Highway Engineers		Accredited by the Institute of Highway Engineers (IHE) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer and partly meeting the academic requirement for registration as a Chartered Engineer.
Institution of Civil Engineers		Accredited by Institution of Civil Engineers (ICE) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer and partly meeting the academic requirement for registration as a Chartered Engineer.
Institution of Structural Engineers		Accredited by the Institution of Structural Engineers (IStructE) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer and partly meeting the academic requirement for registration as a Chartered Engineer.

BEng (Hons) Construction Engineering Management

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Chartered Institution of Highways & Transportation	Meeting in full the academic requirement for IEng	Accredited by the Chartered Institution of Highways and Transportation (CIHT) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer.
Institute of Highway Engineers		Accredited by the Institute of Highway Engineers (IHE) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer.
Institution of Civil Engineers		Accredited by the Institution of Civil Engineers (ICE) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer.
Institution of Structural Engineers		Accredited by the Institution of Structural Engineers (IStructE) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer.

BSc (Hons) Building Surveying

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Royal Institution of Chartered Surveyors	Meeting academic requirements for membership	Accredited by the Royal Institution of Chartered Surveyors (RICS) for the purpose of graduate membership.

BSc (Hons) Property Development

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Royal Institution of Chartered Surveyors	Meeting academic requirements for membership	Accredited by the Royal Institution of Chartered Surveyors (RICS) for the purpose of graduate membership.

BSc (Hons) Quantity Surveying

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Board of Quantity Surveyors Malaysia	Meeting academic requirements for membership	Fully satisfies the academic requirements and is an accredited degree programme of the Board of Quantity Surveyors Malaysia (BQSM).
Royal Institution of Chartered Surveyors		Accredited by the Royal Institution of Chartered Surveyors (RICS) for the purpose of graduate membership.

MEng Civil Engineering

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Chartered Institution of Highways & Transportation	Meeting in full the academic requirement for registration as CEng	Accredited by the Chartered Institution of Highways and Transportation (CIHT) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as a Chartered Engineer.
Institute of Highway Engineers		Accredited by the Institute of Highway Engineers (IHE) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as a Chartered Engineer.
Institution of Civil Engineers		Accredited by the Institution of Civil Engineers (ICE) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as a Chartered Engineer.
Institution of Structural Engineers		Accredited by the Institution of Structural Engineers (IStructE) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as a Chartered Engineer.

MSc Civil Engineering

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Chartered Institution of Highways & Transportation	Fulfilling Further Learning for CEng, further to part CEng or full IEng degree	Accredited by the Chartered Institution of Highways and Transportation (CIHT) on behalf of the Engineering Council for the purposes of meeting the requirements for Further Learning for a Chartered Engineer (CEng) for candidates who have already acquired an Accredited CEng (Partial) BEng(Hons) undergraduate first degree under UK-SPEC.
Institute of Highway Engineers		Accredited by the Institute of Highway Engineers (IHE) on behalf of the Engineering Council for the purposes of meeting the requirements for Further Learning for a Chartered Engineer (CEng) for candidates who have already acquired an Accredited CEng (Partial) BEng(Hons) undergraduate first degree under UK-SPEC.
Institution of Civil Engineers		Accredited by the Institution of Civil Engineers (ICE) on behalf of the Engineering Council for the purposes of meeting the requirements for Further Learning for a Chartered Engineer (CEng) for candidates who have already acquired an Accredited CEng (Partial) BEng(Hons) undergraduate first degree under UK-SPEC.
Institution of Structural Engineers		Accredited by the Institution of Structural Engineers (IStructE) on behalf of the Engineering Council for the purposes of meeting the requirements for Further Learning for a Chartered Engineer (CEng) for candidates who have already acquired an Accredited CEng (Partial) BEng(Hons) undergraduate first degree under UK-SPEC.

MSc Civil Engineering with Environmental Engineering

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Chartered Institution of Highways & Transportation	Fulfilling Further Learning for CEng, further to part CEng or full IEng degree	Accredited by the Chartered Institution of Highways and Transportation (CIHT) on behalf of the Engineering Council for the purposes of meeting the requirements for Further Learning for a Chartered Engineer (CEng) for candidates who have already acquired an Accredited CEng (Partial) BEng(Hons) undergraduate first degree under UK-SPEC.
Institute of Highway Engineers		Accredited by the Institute of Highway Engineers (IHE) on behalf of the Engineering Council for the purposes of meeting the requirements for Further Learning for a Chartered Engineer (CEng) for candidates who have already acquired an Accredited CEng (Partial) BEng(Hons) undergraduate first degree under UK-SPEC.
Institution of Civil Engineers		Accredited by the Institute of Civil Engineers (ICE) on behalf of the Engineering Council for the purposes of meeting the requirements for Further Learning for a Chartered Engineer (CEng) for candidates who have already acquired an Accredited CEng (Partial) BEng(Hons) undergraduate first degree under UK-SPEC.
Institution of Structural Engineers		Accredited by the Institution of Structural Engineers (IStructE) on behalf of the Engineering Council for the purposes of meeting the requirements for Further Learning for a Chartered Engineer (CEng) for candidates who have already acquired an Accredited CEng (Partial) BEng(Hons) undergraduate first degree under UK-SPEC.

MSc Civil Engineering with Geotechnical Engineering

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Chartered Institution of Highways & Transportation	Fulfilling Further Learning for CEng, further to part CEng or full IEng degree	Accredited by the Chartered Institution of Highways and Transportation (CIHT) on behalf of the Engineering Council for the purposes of meeting the requirements for Further Learning for a Chartered Engineer (CEng) for candidates who have already acquired an Accredited CEng (Partial) BEng(Hons) undergraduate first degree under UK-SPEC.
Institute of Highway Engineers		Accredited by the Institute of Highway Engineers (IHE) on behalf of the Engineering Council for the purposes of meeting the requirements for Further Learning for a Chartered Engineer (CEng) for candidates who have already acquired an Accredited CEng (Partial) BEng(Hons) undergraduate first degree under UK-SPEC.

MSc Quantity Surveying

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Royal Institution of Chartered Surveyors	Meeting academic requirements for membership	Accredited by the Royal Institution of Chartered Surveyors (RICS) for the purpose of graduate membership.

MSc Real Estate Management

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Royal Institution of Chartered Surveyors	Meeting academic requirements for membership	Accredited by the Royal Institution of Chartered Surveyors (RICS) for the purpose of graduate membership.

School of Computing

The following programmes currently hold accreditation:

BSc (Hons) Business Information Systems

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
British Computer Society	Fulfilling academic requirements for CITP, and partially meeting CEng and CSci	Accredited as fully meeting the education requirements for CITP and partially meeting the education requirements for CEng and CSci registration.

BSc (Hons) Computer Science

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
British Computer Society	Fulfilling academic requirements for CITP, and partially meeting CEng and CSci	Accredited as fully meeting the education requirements for CITP and partially meeting the educational requirements for CEng and CSci registration.

BSc (Hons) Computing

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
British Computer Society	Fulfilling academic requirements for CITP, and partially meeting CEng and CSci	Accredited as fully meeting the education requirements for CITP and partially meeting the educational requirements for CEng and CSci registration.

BSc (Hons) Forensic Computing

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
British Computer Society	Fulfilling academic requirements for CITP, and partially meeting CSci	Accredited as fully meeting the education requirements for CITP and partially meeting the educational requirements for CSci registration.

BSc (Hons) Software Engineering

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
British Computer Society	Fulfilling academic requirements for CITP, and partially meeting CEng and CSci	Accredited as fully meeting the education requirements for CITP and partially meeting the educational requirements for CEng and CSci registration.

MSc Forensic Information Technology

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
British Computer Society	Fulfilling academic requirements for CITP, and partially meeting CEng and CSci	Accredited as meeting the educational requirement for CITP Further Learning, and partially meeting the education requirements for CEng / CSci registration.

MSc Information Systems

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
British Computer Society	Meeting in part the academic requirements for CEng	Recognised by BCS, the Chartered Institute for IT for the purposes of partially meeting the academic requirement for registration as a Chartered IT Professional.

School of Engineering

The following programmes currently hold accreditation:

BEng (Hons) Electronic Engineering

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Institution of Engineering and Technology	Meeting in full the academic requirement for IEng and in part for CEng	Accredited by the Institution of Engineering and Technology (IET) on behalf of the Engineering Council for the purposes of partially meeting the academic requirement for registration as a Chartered Engineer.

BEng (Hons) Mechanical and Manufacturing Engineering

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Institution of Engineering and Technology	Meeting in full the academic requirement for IEng and in part for CEng	Accredited by the Institution of Engineering and Technology (IET) on behalf of the Engineering Council for the purposes of partially meeting the academic requirement for registration as a Chartered Engineer.
Institution of Mechanical Engineers		Accredited by the Institution of Mechanical Engineers (IMechE) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer and partly meeting the academic requirement for registration as a Chartered Engineer.

BEng (Hons) Mechanical Engineering

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Institution of Engineering and Technology	Meeting in full the academic requirement for IEng and in part for CEng	Accredited by the Institution of Engineering and Technology (IET) on behalf of the Engineering Council for the purposes of partially meeting the academic requirement for registration as a Chartered Engineer.
Institution of Mechanical Engineers		Accredited by the Institution of Mechanical Engineers (IMechE) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer and partly meeting the academic requirement for registration as a Chartered Engineer.

BEng (Hons) Petroleum Engineering

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Institution of Mechanical Engineers	Meeting in full the academic requirement for IEng and in part for CEng	Accredited by the Institution of Mechanical Engineers (IMechE) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer and partly meeting the academic requirement for registration as a Chartered Engineer.

BSc (Hons) Computer Networks

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Institution of Engineering and Technology	Meeting in full the academic requirement for registration as IEng	Accredited by the Institution of Engineering and Technology (IET) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer.

BSc (Hons) Industrial Design

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Institution of Engineering Designers	Accredited Course Status, Meeting in part the academic requirements for CTPD, with further learning	Accredited by the Institution of Engineering Designers for the purposes of fully meeting the academic requirements for Registered Product Designer (RProdDes) and partially meeting the requirements for Chartered Technological Product Designer (CTPD).

BSc (Hons) Product Design and Innovation

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Institution of Engineering Designers	Accredited Course Status, Meeting in part the academic requirements for CTPD, with further learning	Accredited by the Institution of Engineering Designers for the purposes of fully meeting the academic requirements for Registered Product Designer (RProdDes) and partially meeting the requirements for Chartered Technological Product Designer (CTPD).
Institution of Mechanical Engineers	Meeting in full the academic requirement for registration as IEng	Accredited by the Institution of Mechanical Engineers (IMechE) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as an Incorporated Engineer.

MEng Electronic Engineering

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Accreditation of European Engineering Programmes	Accredited course status, European accreditation	Courses accredited as satisfying the outcomes of Second Cycle programmes specified in the EUR-ACE Framework Standards for the Accreditation of Engineering Programmes.
Institution of Engineering and Technology	Meeting in full the academic requirement for registration as CEng	Accredited by the Institution of Engineering and Technology on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as Chartered Engineer.

MEng Mechanical Engineering

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Accreditation of European Engineering Programmes	Accredited course status, European accreditation	Courses accredited as satisfying the outcomes of Second Cycle programmes specified in the EUR-ACE Framework Standards for the Accreditation of Engineering Programmes.
Institution of Engineering and Technology	Meeting in full the academic requirement for registration as CEng	Accredited by the Institution of Engineering and Technology on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as Chartered Engineer.
Institution of Mechanical Engineers		Accredited by the Institution of Mechanical Engineers (IMechE) on behalf of the Engineering Council for the purposes of fully meeting the academic requirement for registration as a Chartered Engineer.

MSc Advanced Manufacturing Technology

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Institution of Mechanical Engineers	Meeting in part the academic requirements for CEng	Accredited by the Institution of Mechanical Engineers (IMechE) on behalf of the Engineering Council for the purposes of partially meeting the academic requirement for registration as a Chartered Engineer.

MSc Communication Network Planning and Management

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Institution of Engineering and Technology	Meeting in part the academic requirements for CEng	Accredited by the Institution of Engineering and Technology (IET) on behalf of the Engineering Council for the purposes of partially meeting the academic requirement for registration as a Chartered Engineer.

MSc Communication Systems Engineering

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Institution of Engineering and Technology	Meeting in part the academic requirements for CEng	Accredited by the Institution of Engineering and Technology (IET) on behalf of the Engineering Council for the purposes of partially meeting the academic requirement for registration as a Chartered Engineer.

MSc Computer Network Administration and Management

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Institution of Engineering and Technology	Meeting in part the academic requirements for CEng	Accredited by the Institution of Engineering and Technology (IET) on behalf of the Engineering Council for the purposes of partially meeting the academic requirement for registration as a Chartered Engineer.

MSc Electronic Engineering

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Institution of Engineering and Technology	Meeting in part the academic requirements for CEng	Accredited by the Institution of Engineering and Technology (IET) on behalf of the Engineering Council for the purposes of partially meeting the academic requirement for registration as a Chartered Engineer.

MSc Mechanical Engineering

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Institution of Engineering and Technology	Meeting in part the academic requirements for CEng	Accredited by the Institution of Engineering and Technology (IET) on behalf of the Engineering Council for the purposes of partially meeting the academic requirement for registration as a Chartered Engineer.
Institution of Mechanical Engineers		Accredited by the Institution of Mechanical Engineers (IMechE) on behalf of the Engineering Council for the purposes of partially meeting the academic requirement for registration as a Chartered Engineer.

MSc Technology Management

<u>Body name</u>	<u>Accreditation type</u>	<u>Accreditation details</u>
Institution of Mechanical Engineers	Meeting in part the academic requirements for CEng	Accredited by the Institution of Mechanical Engineers (IMechE) on behalf of the Engineering Council for the purposes of partially meeting the academic requirement for registration as a Chartered Engineer.
