

South Coast RNA meeting

Time	Speaker	Title
10:00 - 10:20	Sarah Newbury (Sussex)	Novel roles for ribonucleases in development and disease
10:20 - 10:40	Andrew Douglas (Southampton)	C9orf72 oligonucleotide-induced upregulation in fibroblasts
10:40 - 11:00	Lorna Harries (Exeter)	Alternative mRNA processing and small RNA regulation of genes involved in ageing and common chronic disease
11:00 - 11:20	Sasi Conte (KCL)	Deciphering protein-RNA recognition: insights from the La-related protein family
BREAK		
11:50 - 12:10	Nicholas Locker (Surrey)	Multifaceted regulation of RNA granules by norovirus
12:10 - 12:25	Technical Talk 1	
12:25 - 12:40	Technical Talk 2	
LUNCH and POSTERS		
1:40 - 2:00	Heather Bruce (Portsmouth)	Characterisation of the regulatory small non-coding RNA GcvB and its targets from the porcine respiratory pathogen <i>Actinobacillus pleuropneumonia</i> '
2:00 - 2:20	Diana Baralle (Southampton)	Using transcriptomics to identify splice variants
2:20 - 2:40	Rachel Simmonds (Surrey)	TBA
2:40 - 3:00	Mark Coldwell (Southampton)	Non-canonical translation initiation codons that generate novel protein isoforms - driven by mRNA features or protein factors?
BREAK and POSTERS		
3:30 - 3:50	Tobias von der Haar (Kent)	Protein synthesis errors: causes and effects
3:50 - 4:10	Mark Perry (Bedfordshire)	The role of non-coding RNAs in lung disease
4:10 - 4:30	Colin Smith (Sussex)	The translational control of stress responses
4:30 - 4:55	Isaia Barbieri (Cambridge)	TBA
