BSc (Hons) Maritime Studies

Why study for a BSc (Hons) Maritime Studies with Learning at Work?

There is a huge variety of existing, challenging and well-paid careers available in the global maritime industry. Undertaking the BSc (Hons) Maritime Studies through the Learning at Work Partnership Degree Programme with enable you to study for a recognised qualification whilst remaining in employment: allowing you to learn while you earn. The key benefit to you is that you can tailor your learning to suit your professional and personal development aspirations.

This course aims to enhance your nautical knowledge and experience whilst developing the key technical and managerial skills required in today’s maritime industry. It can help junior officers prepare for future senior roles or help with successful transition from the Royal Navy into the private sector. Students who successfully complete the BSc Maritime Studies can use their studies to gain Incorporated (IEng) status through the Institute of Marine Engineering, Science and Technology (IMarEST).

This course aims to develop your abilities to analyse problems, research and propose solutions and to develop your confidence in making key decisions. Your employer should experience a direct benefit and see an improvement in your performance due to the work-based nature of your study.

Previous graduates have pursued successful careers in international shipping, the Merchant Navy, marine equipment manufacturing and supply, maritime security, surveying, port and harbour management, surveying and commercial ship management.

‘One of the major roles of a master on-board is to provide solutions to all kinds of challenges at sea. All of my projects cut across providing solutions to critical challenges in the maritime industry. Not only have I been able to provide solutions to lingering navigational challenges in my company, this journey management has also offered me several opportunities at sea and in ports to act as a master.’

Oyadiran Akinyemi Tunmibi, BSc (Hons) Maritime Studies
